**In-Center Hemodialysis Consumer Assessment of
Healthcare Providers and Services
(ICH CAHPS) Survey
February 18, 2026**

Overview of the ICH CAHPS Survey Vendor Update Training Session

Welcome to the 2026 ICH CAHPS Vendor Update Training Session!

The purpose of this session is to review:

- 2026 ICH facility participation requirements and survey schedule;
- Survey administration updates;
- Vendor oversight;
- Data coding and processing;
- Data submission;
- ICH CAHPS tidbits; and
- More potential future changes to the ICH CAHPS Survey

Training Session Logistics and Reminders

- Your phone will be muted during the presentation.
- We will answer questions at the end of the training. You will be able to submit questions via the Q&A feature or click on the “raise hand” icon to ask your question live.
- If you leave the session at any time, do not disconnect from either the web or telephone connections.
- Please contact the Webinar Event Producer, Patrick Ahearn, for technical assistance issues at: pahearn@rti.org.

Reminder: Self-Paced Introduction to ICH CAHPS Survey Training

Introduction to the ICH CAHPS Survey Training

Self-Paced Introduction to the ICH CAHPS Survey Training

New vendor applicants (and any subcontractors) are required to complete the self-paced Introduction to ICH CAHPS training **and** complete a certification.

Approved survey vendors and subcontractors are not required to complete the self-paced training.

New staff from approved survey vendors are strongly encouraged to complete the self-paced intro training. No certification is required for approved vendors.

2026 ICH CAHPS Participation Requirements and Survey Schedule

2026 ICH CAHPS Participation Requirements: ESRD PPS Rules

- Requirements for administering the ICH CAHPS Survey are determined by the End Stage Renal Disease (ESRD) Prospective Payment System (PPS) proposed and final rules for each calendar year.
- The final ESRD PPS Rule for CY2026 was published on November 24, 2025.
 - The 2026 surveys are part of the quality reporting requirements for payment year 2028.
- A link to the ESRD PPS final rule for CY2026 can be found in the “Quick Links” box on the homepage of the ICH CAHPS website.

2026 ICH CAHPS Participation Requirements: Determining Participation (1 of 2)

- ICH facilities must determine whether they are required to administer the ICH CAHPS Surveys in CY2026 by counting the number of survey-eligible patients served in CY2025.

IF...the facility served **30 or more** survey-eligible patients in CY2025, then:

Facility **IS** required to contract with an approved ICH CAHPS Survey vendor to administer the surveys in CY2026.

IF...the facility served **29 or fewer** survey-eligible patients in CY2025, then:

Facility **is NOT** required to participate in the ICH CAHPS Surveys in CY2026 but can do so if it chooses.

- If your clients have questions about participation in the 2026 surveys: Refer them to the announcement “**Determining Whether Participation in 2026 ICH CAHPS Survey is Required**” on the ICH CAHPS website home page (under the Quick Links box) or ask them to email the Coordination Team at ichcahps@rti.org.

2026 ICH CAHPS Participation Requirements: Determining Participation (2 of 2)

When determining whether an ICH facility is required to participate in the ICH CAHPS Survey in CY2026, the facility should count the number of survey-eligible patients the facility served in CY2025. The count should include hemodialysis patients who:

Were 18 years old or older as of December 31, 2025;

Were alive as of December 31, 2025;

Received hemodialysis on an outpatient basis from their facility for 3 consecutive months or longer at some point in CY2025;

Are not currently receiving hospice care;

Were not receiving dialysis care at a nursing home or other skilled nursing facility where they lived (as opposed to traveling to an ICH facility); and

Were not living in a long-term facility such as a prison or jail as of December 31, 2025.

2026 ICH CAHPS Participation Requirements: Participation Steps in the 2026 ICH CAHPS Survey *Facility Administered the Survey in a Preceding Survey Period*

Facilities that authorized a vendor between 2014 and 2025 do not need to update their vendor authorization UNLESS one of the following is true:

They are switching to a different survey vendor.

They entered an End Date prior to 2026 on their Vendor Authorization Form.

They submitted a Facility Non-Participation Form in the previous survey period.

Facility is Not Required to Administer the Survey

ICH facilities that *are not required* to administer the survey in 2026 can choose one of the following options:

#	Facility Participation Options	Vendor Receives a Sample File from CMS?	Vendor Submits Data to the Data Center for Public Reporting?
1	Administer both surveys in 2026 following all the ICH protocols and procedures described in the ICH CAHPS Survey Administration and Specifications Manual.	Yes	Yes
2	Administer the survey using a third-party vendor but not following the ICH CAHPS protocols and procedures.	No	No
3	Administer the survey themselves instead of using a third-party vendor.	No	No
4	Choose not to administer the survey at all.	No	No

2026 ICH CAHPS Participation Requirements: The 2026 Facility Non-Participation Form

Vendors should note the following details regarding the Facility Non-Participation Form:

The Facility Non-Participation Form is an annual form that is valid only for the two data collection periods that occur in the calendar year in which the form was submitted.

Submission of the Facility Non-Participation Form only alerts the ICH CAHPS Coordination Team that the facility does not wish for a sample file to be provided to their authorized vendor for the current calendar year; it does not affect compliance.

Once the Facility Non-Participation Form is submitted, any existing vendor authorization for the submitted CCN(s) is removed from the ICH CAHPS website. If participating in the survey in subsequent years, the Survey Administrator will need to authorize a survey vendor for the CCN(s).

The Survey Vendor Authorization Report (accessible via the vendor's dashboard) will indicate whether a Facility Non-Participation Form has been submitted for any CCN listed on the report.

The Facility Non-Participation Form is different than the attestation a facility submits in EQRS at the beginning of each year to attest to CMS that the facility served 29 or fewer survey-eligible patients during the preceding calendar year.

Non-Participation Form Submission Deadline:

The 2026 Facility Non-Participation Form must be submitted **by 5:00 PM ET on February 28, 2026.**

IF THE PATIENT WANTS TO KNOW WHY YOU ARE ASKING WHAT RACE THEY ARE, SAY: “We ask about your race or ethnicity for informational purposes only.”

IF THE PATIENT SAYS THEY ALREADY TOLD YOU THEIR RACE, SAY: “I understand. I am required to read all the categories to make sure our results are accurate. Thank you for your patience.”

1. American Indian or Alaska Native,
2. Asian,
3. Black or African American,
4. Hispanic or Latino,
5. Middle Eastern or North African,
6. Native Hawaiian or Pacific Islander, or
7. White?

M MISSING/DK

- Q36 (previously Q59) is now a revised single question to gather race **and** ethnicity information.
 - Ethnicity variable “Hispanic or Latino” (#4) was added.
 - Race variable “Middle Eastern or North African” (#5) was added.
 - Response option “NONE OF THE ABOVE” has been removed.
- Q36 includes onscreen telephone interviewer notes to be read 1) if a respondent asks the telephone interviewer why they are being asked to share their race/ethnicity, and/or 2) if the respondent says they already gave their race/ethnicity.

- Q36 includes onscreen telephone interviewer notes to be read 1) if a respondent asks the telephone interviewer why they are being asked to share their race/ethnicity, and/or 2) if the respondent says they already gave their race/ethnicity.

Survey Administration: Updates to OMB Disclosure Notice Text (1 of 2)

OMB Disclosure Notice Text (in all approved languages)

The OMB Disclosure Notice was revised to include additional information required by OMB.
(2025 Fall Revision)

The OMB Disclosure Notice was revised to reflect the average time to take the survey is now 12 minutes, instead of the previous 16 minutes.
(2026 Spring Revision)

Survey Administration: Updates to OMB Disclosure Notice Text (2 of 2)

Revised OMB Disclosure Notice Text (English)

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0926. This information collection produces comparable data from dialysis facilities to help individuals choose a facility and improve care. The time required to complete this information collection is estimated to average less than 12 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, to review and complete the information collection. This information collection is mandatory for qualifying dialysis facilities under 42 CFR §413.178(c)(iii) to meet program requirements and voluntary for survey respondents. Confidentiality is assured under 5 U.S.C. 552a (Privacy Act of 1974). If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C1-25-05, Baltimore, Maryland 21244-1850. *****CMS Disclosure*** Please do not send applications, claims, payments, medical records or any documents containing sensitive information to the PRA Reports Clearance Office. Please note that any correspondence not pertaining to the information collection burden approved under the associated OMB control number listed on this form will not be reviewed, forwarded, or retained. If you have questions or concerns regarding where to submit your documents, please contact ICHCAHPS@cms.hhs.gov.**

Survey Administration: OMB Disclosure Notice Placement Protocol (1 of 2)

OMB Disclosure Notice Placement Requirements (in all approved languages) *(2025 Fall Revision)*

Starting with the 2025 Fall Survey, the OMB Disclosure Notice can be printed on **EITHER** the mail survey **OR** on the Cover Letters 1 *and* 2.

Vendors can make the determination to print the notice on:

Option 1.

Only the mail survey
(*Notice should be removed from personalized Cover Letters 1 **AND** 2*), **or**

Option 2.

Only the Cover Letters 1 *and* 2
(*Notice should be removed from mail surveys*), **or**

Option 3.

Both the mail survey **and** the Cover Letters 1 *and* 2.

Survey Administration: OMB Disclosure Notice Placement Protocol (2 of 2)

If Printing the OMB Disclosure Notice on the **Mail Survey**

If Printing the OMB Disclosure Notice on **Cover Letters 1 and 2**

Notice must be printed on the survey cover (or first page if no cover) or last page of survey

Notice must be font size 9 point or larger

OMB Number must still appear separately from Notice (i.e., OMB Number may appear twice on survey cover)

Notice must be font size 9 point or larger

Due to increased length, Notice may be printed on the back of the letter (only if necessary), no ERF approval needed

Survey Administration: New Survey Material for 2026 Spring – Survey Materials and Systems Update Checklist

NEW Survey Materials and Systems Update Checklist

In January 2026, the Coordination Team provided vendors with a Survey Materials and Systems Checklist to confirm they have updated all materials and systems that have been revised for the 2026 Spring Surveys.

This Checklist Included:

All materials that were revised for 2026 Spring

All systems that need to be revised for 2026 Spring

Details on the specific materials revisions made for 2026 Spring

Vendors were asked to complete and email the checklist back to the Coordination Team by the deadline.

Survey Administration: New Protocol for Handling Serious Patient Complaints

Handling Serious Patient Complaints

Current ICH CAHPS Protocol:

Surveys must be visually reviewed prior to scanning for notes/comments.

New Additional Protocol:

If the note/comment appears to be a serious patient complaint, such as one that needs to be escalated to CMS, the vendor should alert the Coordination Team for guidance on next steps.

Examples of serious complaints are those reporting unsafe conditions, abuse, neglect, discrimination, and harassment.

Survey Administration: New Optional Protocol for Obtaining Telephone Contact Information – Mixed Mode Only

Obtaining Updated Telephone Numbers for **Mixed Mode Cases Only**

Current ICH CAHPS Protocol:

After the sample file is downloaded, survey vendors must verify each telephone number that is included in the sample file provided by the Coordination Team using a commercial address/telephone database service or directory assistance.

New Protocol: For Mixed Mode cases **only**, vendors are **no longer required** to use a commercial telephone database service or directory assistance to verify **EVERY** telephone number included in the sample file provided by the Coordination Team.

The vendor **does not** have to send **all** cases for telephone verification prior to starting Wave 1 data collection efforts (mail survey mailouts).

Vendors may instead send **only** mail nonresponse cases for telephone verification, **prior** to the deadline to begin Wave 2 phone follow-up data collection efforts.

It is **still required** that vendors verify **all addresses** in their sample using a commercial address database service, prior to starting Wave 1 data collection efforts (mail survey mailouts).

Survey Administration: New Protocol for Handling Multiple Cases Where Patient and Facility Address Match

Multiple Patients Have Same Patient Address That **Also** Matches Facility Address

Current ICH CAHPS Protocol:

Survey vendors must send a survey package to every sampled case that has a complete address.

New Additional Protocol:

Survey vendors may notice that multiple sample patients in their sample file have the same address as the facility.

In these situations, the vendor must contact the Coordination Team for guidance on next steps, **prior to mailing the prenotification letter for these patients.**

The Coordination Team will help the vendor navigate this unique scenario and create an action plan for needed next steps.

Survey Administration: New Protocol for Sample Patients with Multiple Viable Phone Numbers

Sample Patient Has More Than One Viable Phone Number (from EQRS data, Third-Party Phone Search, and/or Data From Client Facilities)

Current ICH
CAHPS Protocol:

If the interviewer receives a new telephone number for the sample patient, the 10 attempts should start over with the new phone number. A total of 10 call attempts must be made on the updated telephone number, if there is enough time left in the data collection period after the new number is identified.

New Additional Protocol:

Vendor should try **all** numbers available in an effort to reduce the number of cases coded as 250 (No response after maximum attempts).

It is the discretion of the vendor to decide the hierarchy of the phone numbers available.

Vendors should still be mindful of following, to the best of their ability, the "10 attempts" rule.

Survey Administration: Clarified Protocol for Adding Facility-Specific Questions

Facility-Specific Questions Protocol Clarification:

It is recommended that vendors/facilities avoid adding sensitive facility-specific questions, such as those having to do with sexuality or gender, or lengthy additions.

The inclusion of such questions will likely reduce expected response rates.

Survey Administration: General Reminders and Notices

Additional Updates to the Version 14.0 ICH CAHPS Survey Administration and Specifications Manual

General Reminder: Changes are sometimes made to ICH CAHPS survey materials. Vendors should always confirm that they are using the most recent version as notified by the Coordination Team.

Starting in 2026, the *ICH CAHPS Survey Administration and Specifications Manual* will no longer include copies of survey materials that are also included on the ICH CAHPS website. Appendix A of the manual will now include website links to these various survey materials and tools.

Survey Administration: July 2026 CTAR Newsletter

July
2026

ICH CAHPS® Coordination Team Annual Review

- Starting in 2026, the ICH CAHPS newsletter is transitioning from semiannual to annual.
- The newsletter will now only be posted to the ICH CAHPS website in July of each year and will still be emailed to all approved vendors and registered facility users.
- Newsletters will provide ICH facilities and survey vendors with helpful ICH CAHPS information.
- We encourage vendors to share the newsletter with their ICH facility clients.
- Please let the Coordination Team know of any topics you would like included in future newsletters.

Survey Administration: Revised XML Data Layout File and Schema Validation Tool for Data Submission

The ICH CAHPS Survey XML data layout file (Version 11.0) has been revised to reflect all changes made to the 2026 Spring mail surveys and telephone scripts. These XML file edits include:

24 questions removed from mail survey

23 questions removed from the telephone script

Addition of new single race/ethnicity question

By May 2026, the ICH CAHPS Survey data submission tools (Schema Validation Tool and Data Submission Tool) will be updated to reflect these changes. Announcements will be posted on the website when the revised tools are available.

Survey Administration: Change to Survey Vendor Authorization Report

Survey Vendor Authorization Report – Removed Non-Active Facility Participation Forms

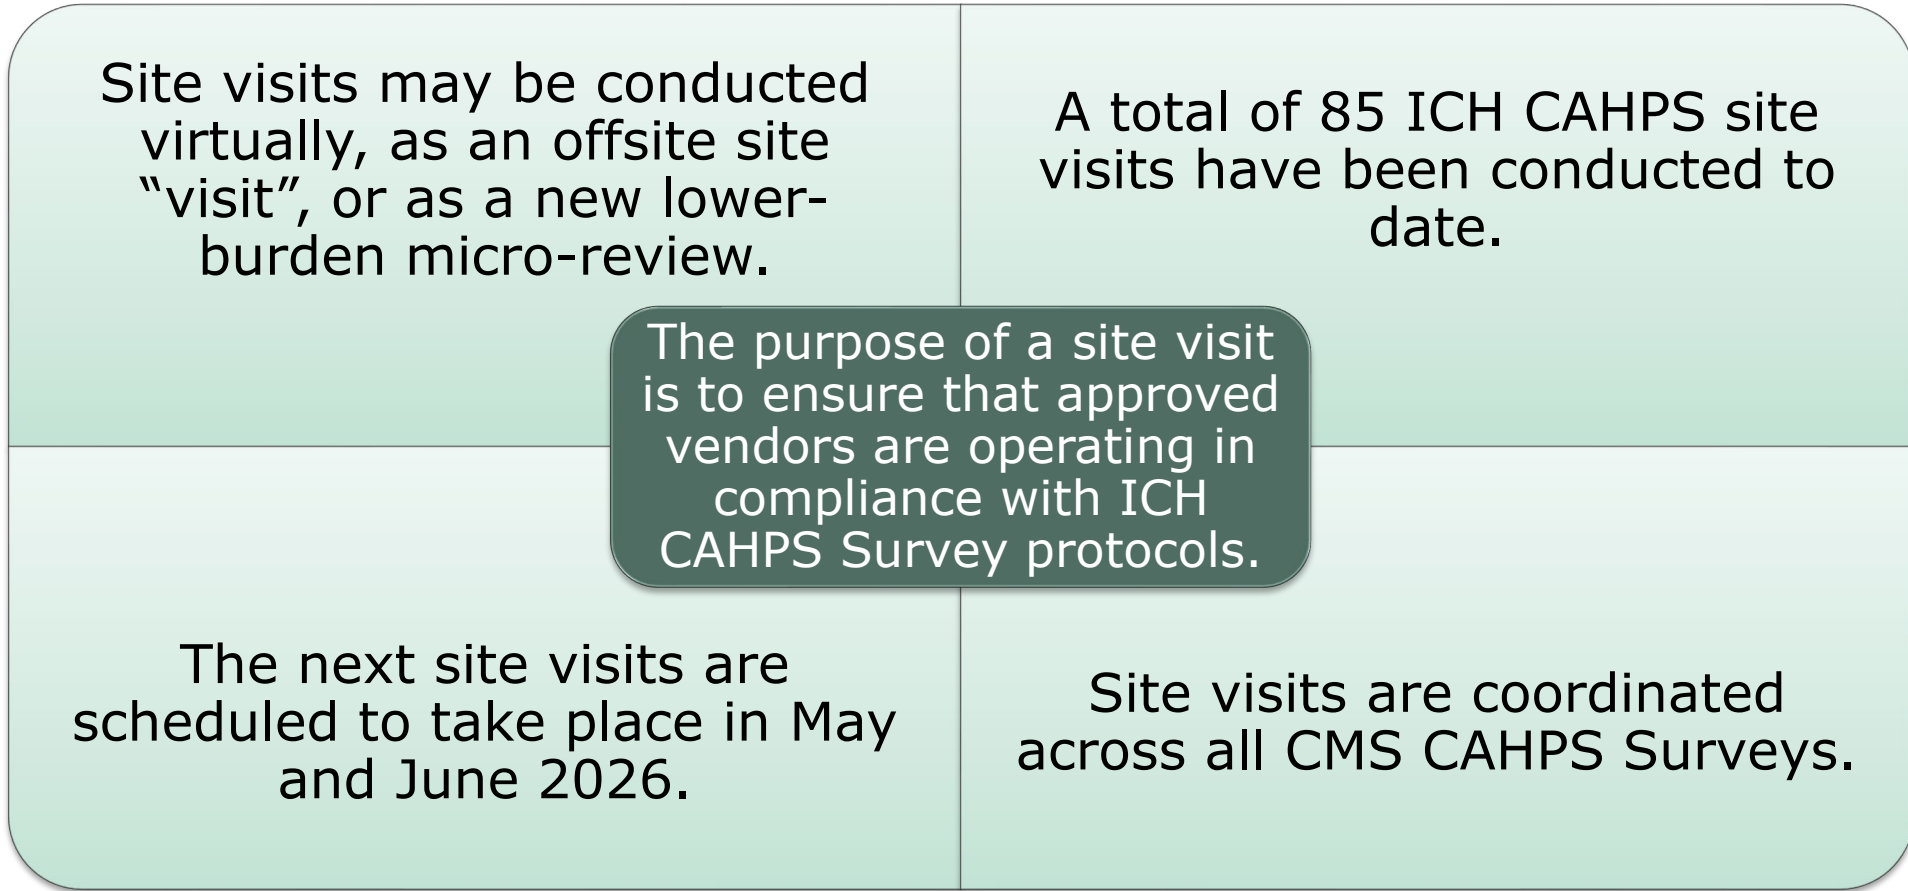

The *Survey Vendor Authorization Report* (accessible via the vendor's dashboard) will indicate whether a Facility Non-Participation Form has been submitted for any CCN listed on the report.

In rare occasions, a facility will submit a *Facility Non-Participation Form* for the Spring Survey and then authorize a survey vendor for the Fall Survey of that same calendar year.

To avoid confusion, this report will no longer retain a record that the *Facility Non-Participation Form* was submitted for the Spring Survey for these CCNs that request the Spring form be removed.

Vendor Oversight

Vendor Oversight: ICH CAHPS Site Visits (1 of 2)

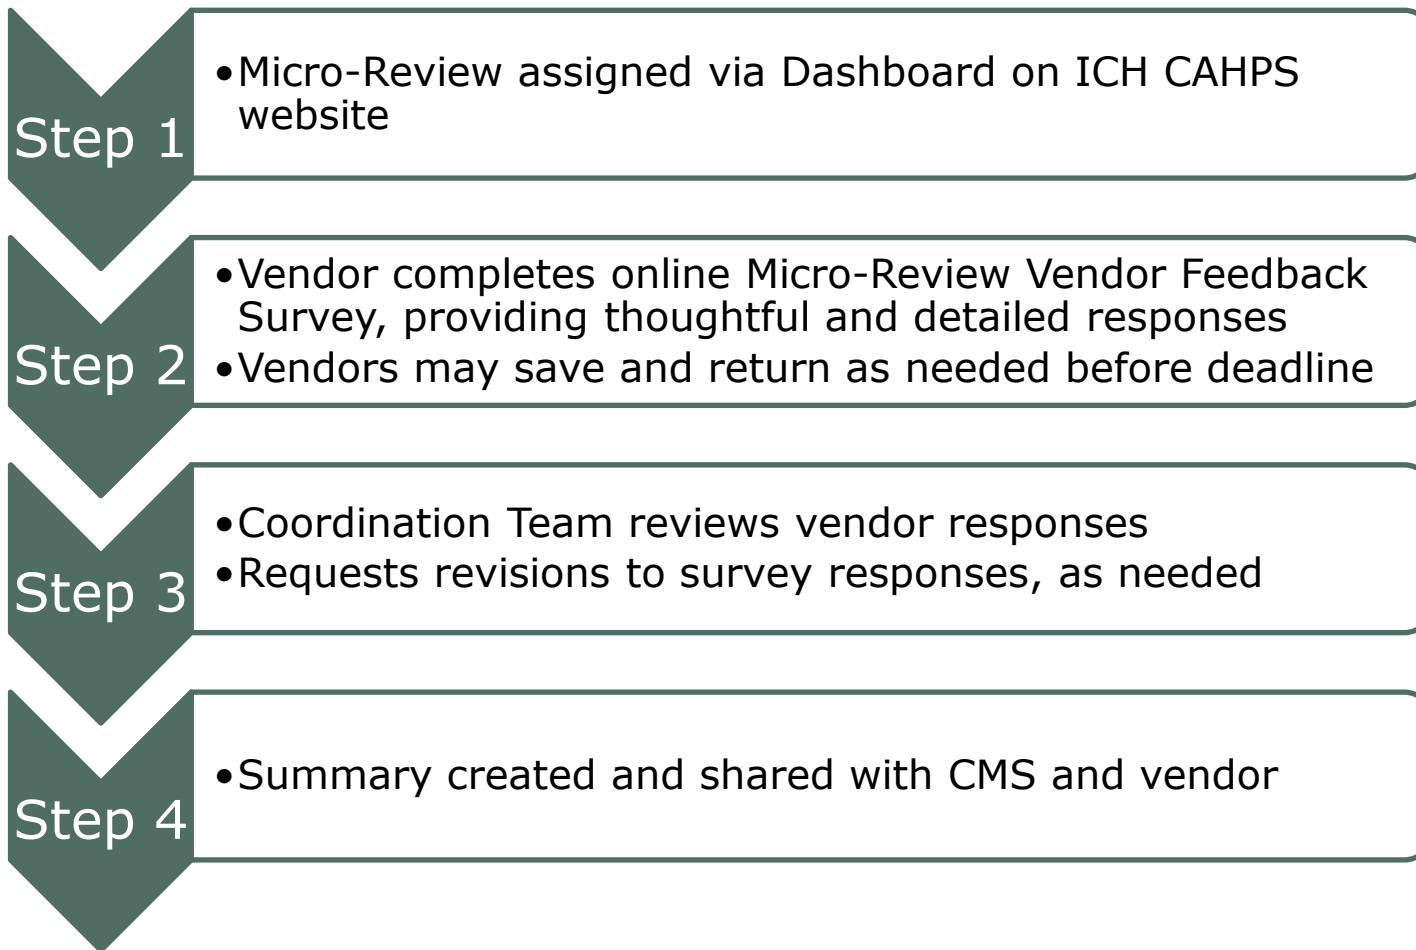

Vendor Oversight: ICH CAHPS Site Visits (2 of 2)

2026 Virtual Site Visit Process

- Data Digging and Call History Review are conducted, and results are sent to vendors, prior to the virtual site visit.
- Goal is to allow time for vendors to conduct internal investigations, as needed, so that findings can be discussed during the actual site visit.

Vendor Oversight: New Micro-Review Process

Vendor Oversight: General Oversight Reminders Based on 2025 Site Visits

Reviewing notes/comments on mail survey prior to scanning

- Vendors should visually review submitted mail surveys prior to scanning for notes/comments. If the note/comment appears to be serious, alert the Coordination Team immediately.

Checking scanning parameters

QC'ing XML data

Retraining interviewers, as needed

Vendor Oversight: Quality Assurance Plans

Annual Quality Assurance Plan Update

Due Date: May 31, 2026

Survey vendors are required to include the following in their QAP Update (or as an attachment):

Copy of the mail survey (for mail and mixed mode surveys) for each language they are administering the survey;

Screenshots of the entire survey from their CATI interview (for telephone and mixed mode surveys) for English and Spanish, if applicable;

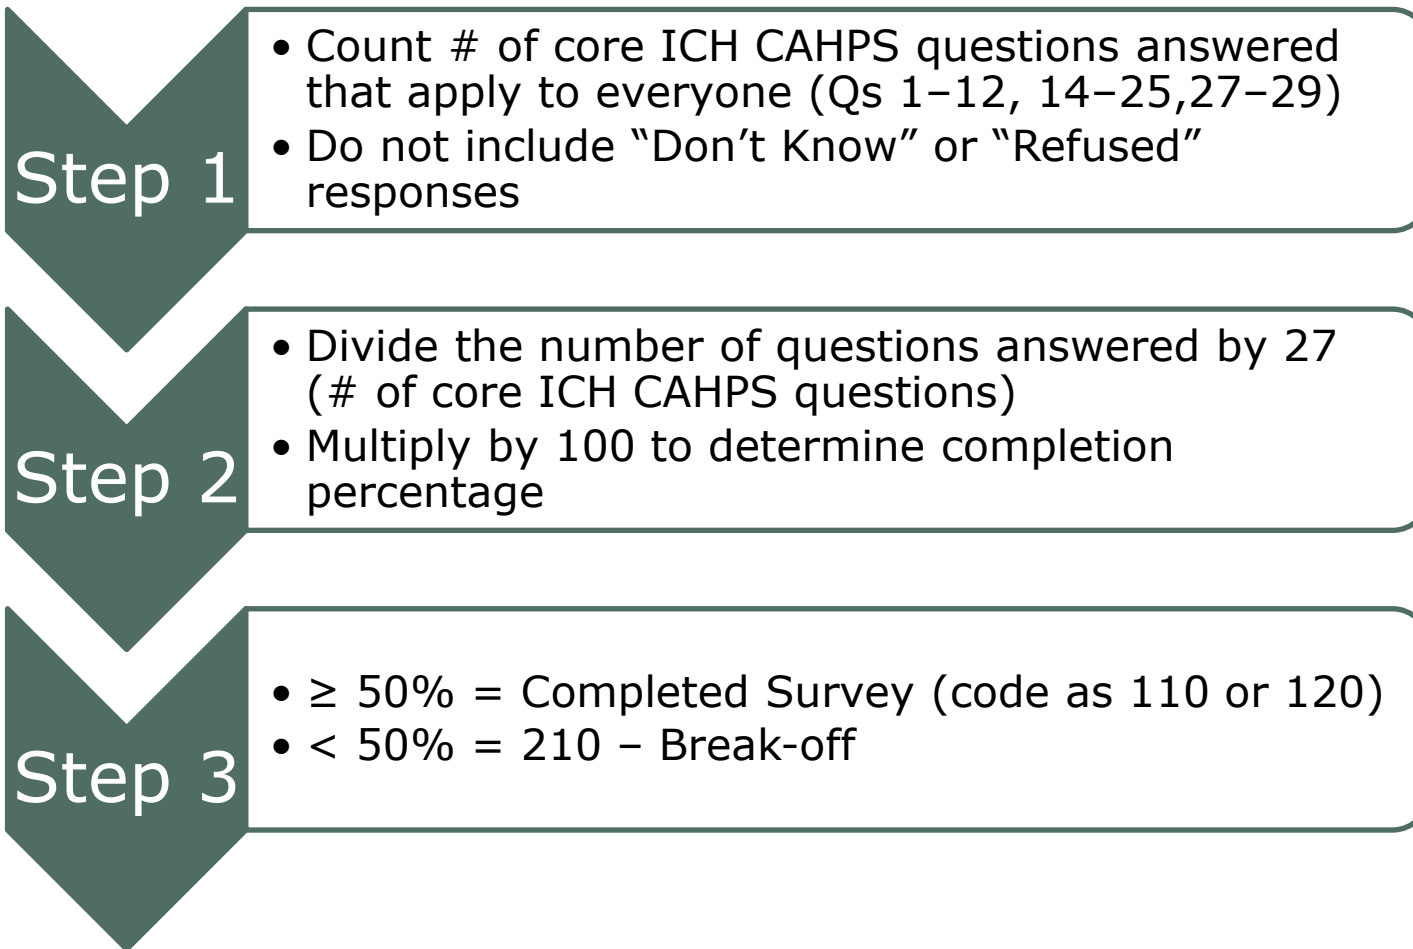

Prenotification letters, Cover letters 1 and 2 for each language they are administering the survey; and

Screenshot of their ICH CAHPS Survey package envelope template (used to send both prenotification letters and mail survey packages).

IMPORTANT REMINDER: Vendors must submit the correct (current) versions of all required materials for review

Data Processing and Coding

Data Processing and Coding: New Completeness Criteria for Revised Survey

Data Submission

Data Submission: Revised XML and Schema Validation Tools for Revised Survey

XML File Layout

- Defines all required data elements
- Includes header record and patient response record details

XML Schema Validation Tool

- Defines validation rules applied at the time of submission

Both tools will be available on the ICH CAHPS website under Data Submission Resources no later than May 2026.

Vendors are expected to use the **most current** XML File Layout and Schema Validation Tool and to test, quality check, and validate XML files against the schema prior to submission.

Data Submission: QC Checks to Complete Prior to 2026 Data Submission Deadline

Required QC Checks

- Run the XML Schema Validation Tool on each XML file
- Confirm all sampled patients are included in the XML
- Verify SID matches and response data align to the correct patient
- Apply revised completeness criteria and assign correct final disposition codes
- Confirm response data are present for all applicable final codes
- Compare a sample of XML records to scanned mail surveys and/or raw CATI data

Recommended QC Checks

- Review response distributions and frequencies (halfway through data collection during 2026 Spring Survey period as well as after end of data collection)
- Check for anomalies, outliers, unusual missingness patterns
- Confirm correct use of "X – Not applicable" and "M – Missing"

Key Timing & Dates

May 2026: Data submission tools available for the revised survey*

July 29, 2026: 2026 Spring Survey data submission deadline

*Announcements will be posted on the ICH CAHPS website when revised tools are available.

ICH CAHPS Tidbits

ICH CAHPS Response Rates by Mode Over Time

Response Rates over Time (Fall 2021 - Spring 2025)

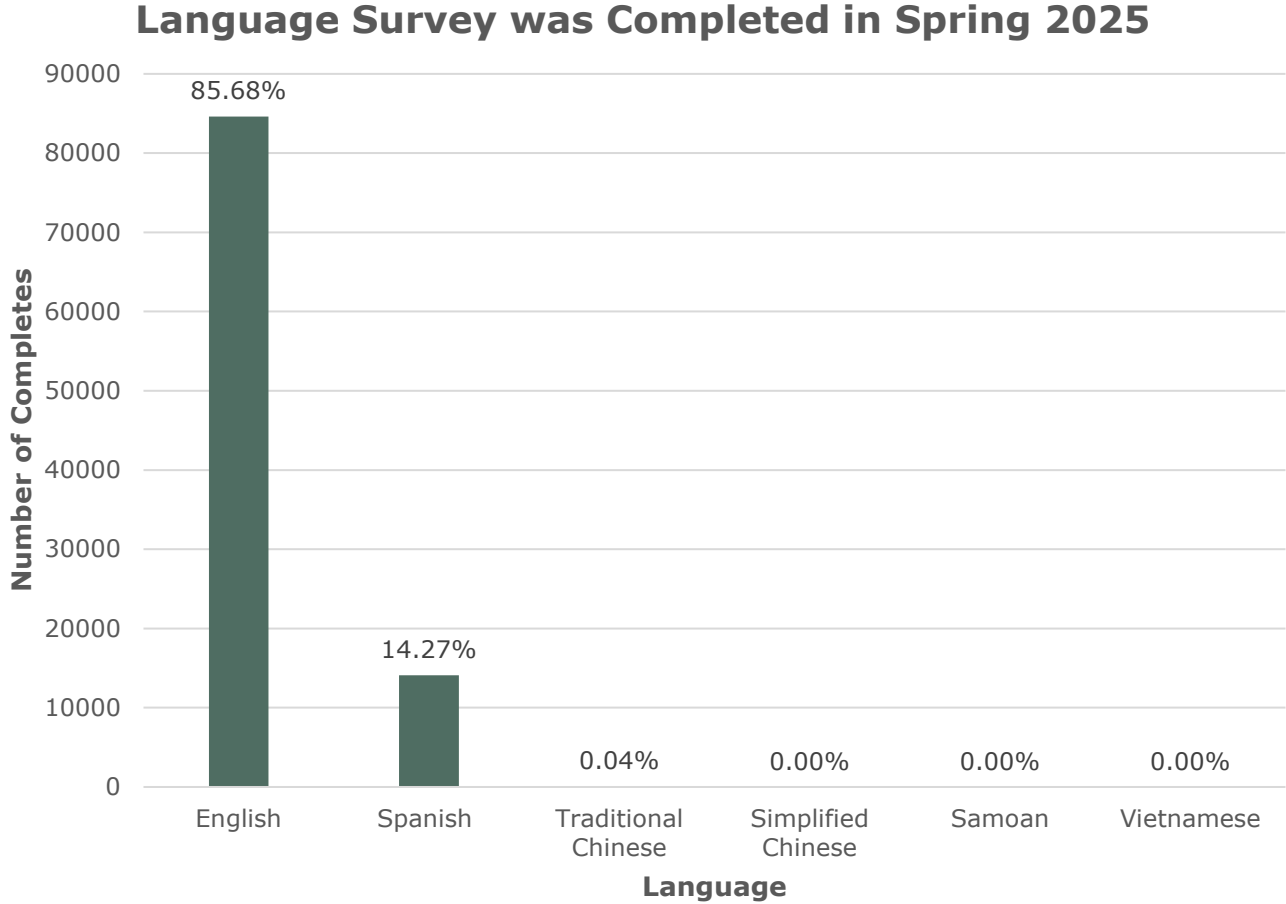

Tips for Improving ICH CAHPS Response Rates (1 of 2)

- Vendors should encourage facility clients to:
 - Use the ICH CAHPS flyer/poster and Waiting Room FAQs
 - Share with patients how they will be contacted (provide vendor name and phone number so they recognize the mail/call)
 - Provide patient contact information (for all patients served during the sampling window)
 - Provide vendor with the “Doing Business As” name for their facility as it often differs from the facility name provided in EQRS
 - Choose an appropriate mode of administration for their patient populations

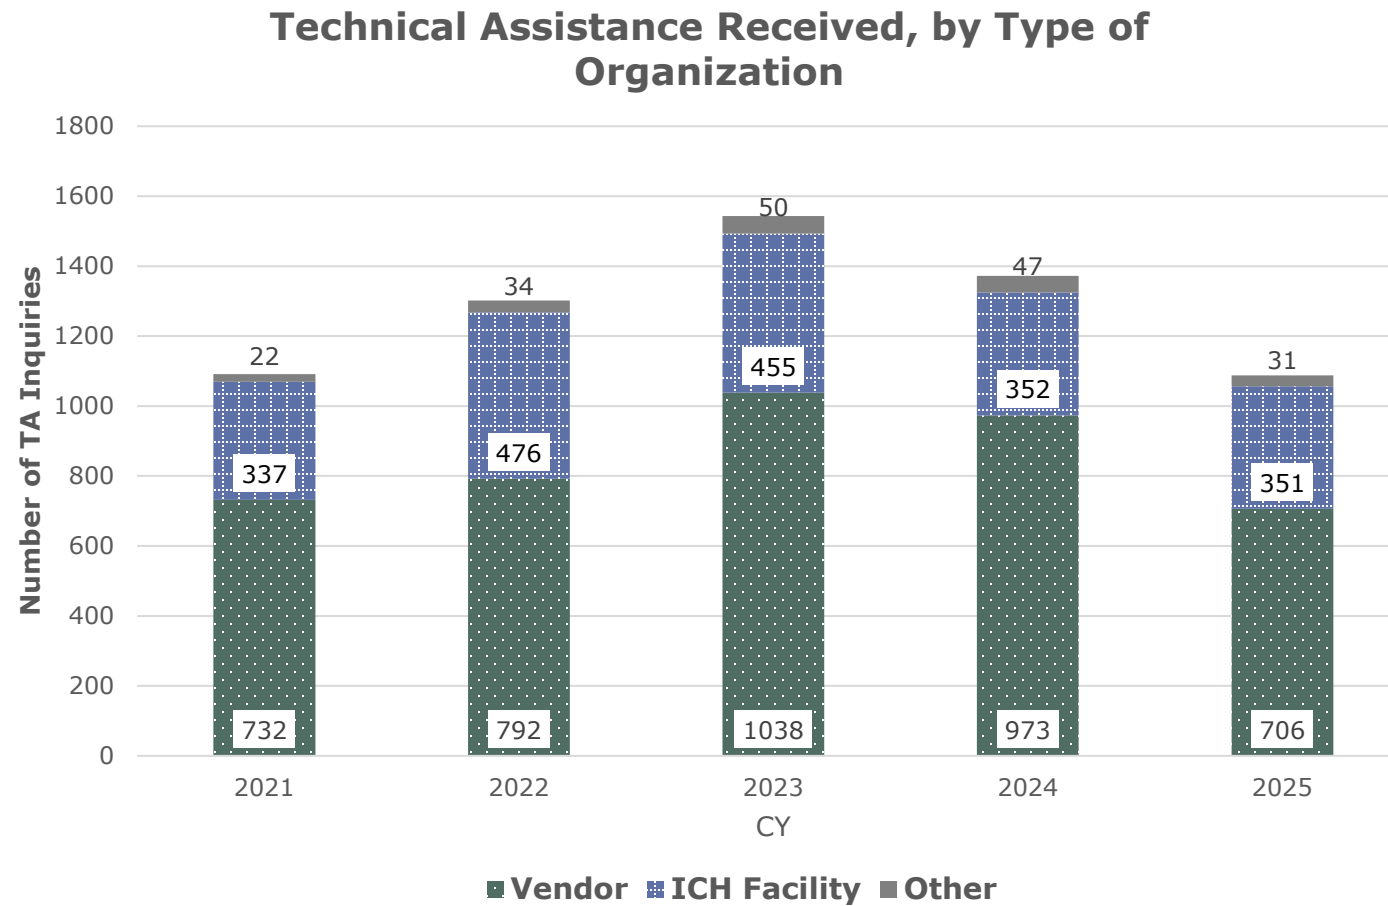

Tips for Improving ICH CAHPS Response Rates (2 of 2)

- Vendors should also consider:
 - Implementing a phone caller ID tag, such as “Dialysis Survey”, so patients know who is calling
 - Using a local number when interviewers call to lend legitimacy of the call
 - Share response rate information with facility clients and ask if they have any ideas that may help with their specific patient populations
 - Monitor response rates for facility clients that you know use the flyer/poster and/or Waiting Room FAQs...if we have evidence that they work, it may convince others to use these tools!
 - Encourage your clients to share with their patients that CMS heard their feedback and as a result, the survey is now shorter!

Technical Assistance Inquiries Over Time

Technical Assistance Topics

ICH CAHPS TA Inquiries (Calendar Year 2025)

More Potential Future Changes to the ICH CAHPS Survey

Potential Combined Survey for ICH and Home Dialysis Patients (1 of 3)

- Home dialysis stakeholders have expressed the need for home dialysis patients to have a CAHPS survey to share their perspectives about their home dialysis experiences.
- Finding the number of patients in EQRS receiving home dialysis is small, CMS determined that developing a separate CAHPS survey for this population is not feasible at this time.
- CMS tasked RTI with determining whether the revised survey could be adapted to include both ICH and home dialysis patients.

Potential Combined Survey for ICH and Home Dialysis Patients (2 of 3)

CMS and RTI conducted a number of activities:

- Met with stakeholders and talked through possible options for having a home dialysis survey.
- Drafted a combined ICH/home dialysis survey for testing based on several home dialysis resources and experts.
- Conducted several qualitative research activities, such as focus groups and cognitive interviews.
- Held a Technical Expert Panel to discuss the results of these activities with home dialysis patients and key stakeholders.

Potential Combined Survey for ICH and Home Dialysis Patients (3 of 3)

What's Next?

Discussing the feasibility of field testing a combined ICH/home dialysis survey.

The earliest this would be tested, if feasible, is 2027 Spring.

If tested during a field test, we would also conduct a mode experiment to test a web mode.

Potential Web Mode for the ICH CAHPS Survey (1 of 2)

- If a field test/mode experiment is funded to test the combined ICH/Home dialysis survey, we would also re-test a web mode.
- During the 2022 mode experiment, the web with mail follow-up mode had the lowest response rate, with only 3% of the overall response rate in that mode responding by web.
- We know that a big impact on this was the lack of email addresses in the EQRS data used for sampling.
 - Upon recent review, out of the 928,000 patients in EQRS, only about 86,000 (9%) have email addresses included.

Potential Web Mode for the ICH CAHPS Survey (2 of 2)

- Email addresses are critical for a web survey to succeed!
- We have been working with our Large Dialysis Organizations (LDOs) to better understand the feasibility of obtaining patient email addresses prior to another mode experiment/field test.
 - This is an ongoing effort, with a goal to increase the number of email addresses in EQRS for sampling months of October, November, and December of 2026, in anticipation of a mode experiment concurrent with the 2027 Spring Survey.
 - However, obtaining email addresses is proving to be a difficult obstacle to overcome.
- Vendors are encouraged to encourage their clients to collect/enter email addresses!
